**PERFORMANCE CERTIFICATE**

This is to certify that M/s. Sim Infosystems Private Limited has supplied the dynamic simulator systems to our department during June 2017 with the following components:

- ProSimulator Instructor & Operator station software
- PS1000 – Control & Instrumentation suite
- PS2000 – Basic Process Operations Suite
- PS3000 – Refinery Operations Suite
- PS4000 – Fertilizer Operations Suite
- PS6000 – Gas Plant Operations Suite
- PS7000 – Petrochemical Operations Suite
- ProSimulator model Development package

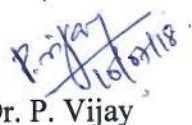

Sim Infosystems had trained our faculties on the usage of the simulator. We have now integrated the simulator learning as part of our Academics. We have also introduced this software to our students during our Professional Software Training (PST) program. The students find the learning through the simulator is very effective and interesting.

I would appreciate Sim Infosystems for their tremendous and honest effort in building up such a simulator which would be very useful to the students (especially when they are employed in industries).

We are happy with the performance of the software as well as the good technical support being provided by Sim Infosystems.

I wish Sim Infosystems to have better and great opportunities in building up the technical skills of students.

Thanks and Regards

Dr. P. Vijay  
Associate Professor & Head  
Department of Chemical Engineering
