Dear Sir

This is to certify that SASTRA Deemed to be University procured 60-user perpetual license the following two modules from M/s Sim Infosystems Private Ltd. in February 2020.

- PS-1000 PROSIMLAB-Control & Instrument Suite
- PS-2000 Basic Process Operations

The technical personnel from M/s. Sim Infosystems Pvt. Ltd. trained our faculty towards using the above two modules. We are pleased with the product installation and support extended by Sim Infosystems towards usage of the operating training tool. The operating training tool is used as part of the EIE212 Process Dynamics & Control Laboratory course for B.Tech. Chemical Engineering.

Subsequently, this year a dedicated one-day workshop for students was also conducted by the technical engineer from Sim Infosystems on October 15, 2022. This one-day workshop was attended by about 40 students, which also includes about 10 students from outside institutes. The workshop provided the basic exposure towards the tool and the emphasized the significance of simulation tools in process industry.

We are thankful to Sim Infosystems for their sustained support, facilitating the use of the tool.

Thanking you

Yours faithfully

  
(Dr. V. Ponnusami)
